Emerging Star of the Month, IndiaMART InterMESH Ltd.

Projects

2017

Samyog, A free portal aimed at creating a space where projects and volunteers working for providing free education to underprivileged children, could easily connect and interact. [↗](#)

- It was created as a proof of concept to show that small scale non profit organisations require such a platform.
- Laravel Framework was used to create the web application along with MySQL to manage the database. The site was deployed using EBS service of AWS.
- Around 100 organisations registered on the website using their email and published their need of volunteers.

2016

Arithmos [↗](#)

A website that allows user to search through algorithms, aimed at encouraging users to concentrate on the logic of the problem rather than syntax of languages.

Interests

Solving Puzzles, Cycling

Languages

English (Full Working Proficiency) • **Hindi** (Native)
